

1535.1-BOULDER GRAB

The 1535 manual operation boulder grab has been designed specifically for the safe movement of irregular shaped stones and boulders where a machine is unable to get access to location. Sturdy "pincer" gripping action and hand grips enable the accurate placement of items.

Product Code	SWL (kg)	Jaw Width (mm)	Weight (kg)
1535.1	200	0-600	10
